Bids **must** reach the municipality before **12h00 on Monday the 3rd of June 2024**.

BACKGROUND AND SPECIFICATIONS/ SCOPE OF WORK

Due to old age of the infrastructure, service delivery complaints are a constant, especially on water and electricity services. Many community members and businesses are currently connected on straight water connections leading to unaccounted-for-water and therefore loss of revenue. Further due to the old age of our infrastructure, our bulk and main lines also break/burst on a regular basis. Due to the above, the water team needs material to be available in stores to ensure issues/complaints are addressed speedily. As mentioned above some material and tools are not part of the contract with the appointed service provider, but is very necessary as we had to procure a lot of these items using quotations.

The water maintenance team has identified the following water material and tools that is not on the list of the appointed service provider, but is required in stores and others for immediate use when they are delivered. The table below is a list of material that need to be supplied to our stores.
